Steps taken to ensure that modern slavery and human trafficking are not taking place in SC Group's business and supply chains

At the core of SC Group lies [Sumitomo's Business Philosophy](#), which has been passed down and followed faithfully for more than 400 years since Masatomo Sumitomo (1585-1652) had founded. [Our Corporate Mission Statement \(Management Principles and Activity Guidelines\)](#) is based on this philosophy and represents SC Group's fundamental and ultimate value standard. In the Corporate Mission Statement, it clearly states that SC Group respects the personality of each individual and places prime importance on integrity and sound management.

We also identified our [“Six Material Issues to Achieve Sustainable Growth with Society”](#) in 2017, a set of social issues that SC Group regards as important and should prioritize addressing through its business activities as well as the challenges SC Group needs to overcome in creating solutions. SC Group positions these material issues as an important factor in developing business strategies and in the decision-making process for individual businesses.

SC Group takes its commitment to tackling modern slavery and human trafficking very seriously. We set out below the steps SC Group has taken to help ensure that modern slavery and human trafficking are not taking place in SC Group's business or supply chains:

[SC Group's Human Rights Policy](#)

We respect [“the International Bill of Human Rights”](#) and [the International Labor Organization’s “Declaration on Fundamental Principles and Rights at Work”](#), and we operate in accordance with [“the United Nations Guiding Principles on Business and Human Rights”](#).

In line with [SC Group’s Human Rights Policy](#), i) we strive to identify and to prevent or mitigate any adverse impact on human rights through the implementation of human rights due diligence processes, ii) where we identify that our group’s practices have caused or contributed to an adverse impact on human rights, we will endeavor to take appropriate remedial measures, iii) we will seek to improve and progress human rights measures through engagement and dialogue with relevant stakeholders, and so on.

[SC Group’s CSR Action Guidelines for Supply Chain Management](#)

We have established [the SC Group CSR Action Guidelines for Supply Chain Management](#). Through the implementation of these guidelines, we are aiming to realize a sustainable society by working together with our suppliers, business partners and contractors, etc. to achieve responsible value chain management. As part of these guidelines, we set out its values to “Respect human rights and not to be complicit in human rights abuses” and to “Prevent forced labor, child labor and the payment of unfairly low wages.” These principles establish the overarching guidelines encompassing our commitment to combating modern slavery and human trafficking.

In the event that we find violations of these guidelines in our supply chains, we will urge the suppliers, business partners or contractors, etc. to remedy and improve the situation, while providing support to them as needed. However, if there are no improvements to the situation by them, we will consider carefully whether to continue our business with them or not.

[Enhancement of SC Group Governance](#)

In order to embody “Reinforcement of Management Bases” in [the Medium-Term Management Plan 2020](#), we are working on “Enhancement of SC Group Governance” aiming to improve business quality and corporate value through internal control for all consolidated subsidiaries. Specifically, we have introduced a governance framework that uses SC Group standard tool called Basic Elements to visualize the internal control status of each group company and solve issues identified through “dialogue” with the parent company.

The Basic Elements include “Respect for Human Rights”, “Labor Management, Health, Safety and the Environment”, and “Supplier Management”, and if there are issues, we formulate a response policy according to its business nature and regional conditions. Through regular monitoring, we will continue working to prevent modern slavery and human trafficking in SC Group’s business or supply chains through further enhancing governance considering its business nature and regional conditions.

Social and Environmental Risk Management in Individual Project

In order to promote social and environmental risk management for each business, taking into account the nature of the business and the characteristics of the region where it operates, we established a management system that considers social and environmental impacts when making decision on a new investment, by utilizing an assessment sheet for social and environmental risks, and by having the Corporate Sustainability Department, a specialized organization for social and environmental issues, participate in the process of deliberations.

After the implementation of each investment, we monitor the status of social and environmental risk management and if any issues arise, we will work for improvements according to the characteristics of the business.

[Active commitment to the UN Global Compact](#)

We signed [the UN Global Compact](#) and declared its support for the 10 principles in March 2009 as the parent company of SC Group. This international sustainability related initiative shares the same values as our Corporate Mission Statement. With our participation in the Global Compact, we have committed ourselves to further increasing corporate value by constantly seeking out areas of our business activities that can be improved in light of the values advocated by the 10 principles. The UN Global Compact has been referred also through the internal auditing process of SC Group.

[Training](#)

In order to raise our awareness especially about modern slavery, we have utilized an American NGO Verite's free e-Learning of Supply Chain Accountability on forced labor and human trafficking as a useful training material, which is one of the referred tools on '[Transparency in Supply Chains: A Practical guide](#)' published by UK Home Office.

Since SC Group conducts a wide range of business in multiple sectors, the associated risks vary, however the eradication of any instances of modern slavery and human trafficking remains a key priority.

We will continue to undertake these efforts aimed at ensuring that no modern slavery or human trafficking of any form exists in our business and supply chains.
